DETAILED ACTION

Response to Amendment

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Rick James on 11/16/2007.

Abstract: Please *delete* top line (2003B095US) and page number (24).

Claims Allowed

The following is an examiner's statement of reasons for allowance:

A catalytic cracking process for selectively producing C₃ olefins as claimed in claim 19, wherein multi-component catalyst comprises a first molecular sieve component having an intermediate pore size and a second molecular sieve component having a structure type that is different from the first molecular sieve and a pore size index of at least one channel of the second molecular sieve is less than the pore size index of at least one channel of the said first molecular sieve, is not taught or fairly suggested in the prior art. The prior art teaches a combination of a large pore molecular sieve and a medium pore molecular sieve.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Prem C. Singh whose telephone number is 571-272-6381. The examiner can normally be reached on 8:00 AM to 4:30 PM.
